EN

THE PURPOSE OF THE CONFERENCE is to unite the scientific and educational community and businesses to create conditions for ensuring the economic transformation of the region, its restoration, reconstruction, and modernization.

RELEVANCE: searching, discussing, and identifying effective mechanisms of mutually beneficial cooperation between the scientific, educational, and business communities to ensure the restoration of the region, as well as to pursue implementation of the European integration processes and harmonization of the educational, scientific and innovative environments; it is a challenge to the lack of unity between the scientific, educational, and business communities, which is one of the main risks for the post-war restoration of Kherson region.

• **THE ORGANIZERS SET THE FOLLOWING OBJECTIVES:**

- development of interaction between scientific, educational, business, and public circles to ensure the conditions for the region reconstruction;
- finding effective solutions to revive the region and accelerate its sustainable economic growth;
- finding ways to support investments and reduce the risks of post-war restoration of Kherson region.

REPRESENTATIVES of the scientific and educational community, businesses and business associations as well as authorities and public sector are welcomed to participate.

CONFERENCE SYNERGY OF SCIENCE AND BUSINESS IN THE POST-WAR RESTORATION OF KHERSON REGION will serve as the platform for consolidating the potential of participants in identifying specific features of effective solutions and overcoming challenges in the process of restoration in all spheres of the community life, aimed at reviving the region and accelerating its sustainable economic growth.

WE BELIEVE that restoration and development of the region should be developed into a national project of comprehensive economic modernization and infrastructure reconstruction of Kherson region. Participation in the conference will allow you to share your vision for the further development of Kherson region and entire Ukraine.

THE CONFERENCE PROGRAM INCLUDES THE FOLLOWING SECTIONS:

1. Construction, architecture, and design in the post-war restoration of the human environment.
2. The role of information systems and technologies in the post-war restoration of the regional economy.
3. Renovation, reconstruction and modernization of industrial and municipal utilities, production companies in power engineering sector and infrastructure facilities.
4. Innovative technologies in the light industry, food production, chemical, perfume, and cosmetic industries for the modernization of the region in the post-war period.
5. Socio-economic aspects and public administration and management in the post-war restoration of the region.
6. Tourism development: actual challenges and ways for recovery.
7. Agricultural sector of Kherson region: problems and rebuilding perspectives.
8. Implementation of projects of infrastructure reconstruction, sea and river ports development, and marine educational institutions of Kherson region.
9. Skills and Human Capital Development.

WORKING LANGUAGES of the conference: Ukrainian, English. Form of participation: remote.

PARTICIPATION IS FREE OF CHARGE.

DURATION OF PRESENTATIONS: at the plenary session up to 20 minutes, at the panel sessions up to 15 minutes; for the discussions to follow up to 10 minutes.
